Blos, Peter, 136

Bowlby, John, 29–52; abuse and neglect, affects on children, 43; anxiety, causes of, 33; Attachment, 29, 40; attachment, concept of, 29, 40, 41; attachment deficits, 43; behavior disturbances among children in institutions, 30; behaviorism and cognitive theory, influences of, 35; Cambridge studies, 30; children, securely attached vs. abused/neglected, 44; Darwin, influence of, 33; delinquency, causes and prevention, 44; differentiation of attachment from dependency, 36; Erikson, criticism of, 72; internal working models, 44; Klein, conflicts with 36–38; Loss, 29, 41, 42; Mahler, relationship to ideas, 66–68; Maternal Care and Mental Health, 32, 40; maternal deprivation and separation, 31; methodology, flaws in, 39; mother's role in child development, 32; mother's responses to baby, importance of, 44; mourning, infant's capability of, 4, 38; Nature of the Child's Tie to His Mother, 38; officer selection process, Tavistock Clinic, 31; psychoanalysis, critical attitude toward, 30; real-life events, importance of, 9; relationship with parents, 30–31, Separation, 29, 40, 41; separation anxiety, 38, 42; social workers, criticism from, 39; theory of mental representations, 43–45; trauma, ideas on, 7; Winnicott, criticisms of Bowlby's papers by, 39; women's movement, criticism from, 39–40

Brethereton, Inge, 80

British object relations, 53; middle or independent tradition of, 1, 12–27

British Psychoanalytic Institute, 30, Bowlby’s paper for, 38

Cambridge studies, 30

Cassidy, Jude, 80

Cassidy-Marvin System, 108

Childhood anxiety disorders and attachment insecurity, 106

Child psychopathology, understanding of, 105

Children, anxiety disorders in, 106;
Child’s developmental history, importance of, 108
Child’s separation reaction, three stages of, 41–42
China, attachment studies in, 90
“Circle of security,” 102
Classical psychoanalysis, 2–5; primacy of intrapsychic processes in, 4; problem of historical reconstruction in, 5
Cognitive and social development model, 43
Cohesive self, 76
Contact, need for in infants, 186n. 2
Contemporary infant studies, attachment, 97–98
Contemporary life, loss of meaning in, 74
Countertransference, 175–178
Crittendon’s Preschool Assessment of Attachment, 107
Cross-cultural studies of attachment, 79, 88–94
Damasio, Antonio, 85; and three senses of self, 86
Darwin, Charles, 33
Delinquency, causes and prevention, 41
Denial stage, 42
Depression, 106
Depressive position of Klein, 11
Despair stage, 42
Dewey, John, 54
Differentiation subphase, 62–63
Disaffectation, as compared to alexithymia, 187n. 6
Disintegration anxiety, 77
Disorganized attachment style, 79, 81
Disorganized/disoriented attachment style, 122
Disruptive behavior patterns, 106
Diversity and attachment, 88–94
Dogon culture, 89
E (Pygmy) culture, 89
Eight-stage epigenetic model, 70
Empathy, 75; Kohut’s concept of, 75
Epigenesis, 68
Epigenetic model, 68–73, 135–136; notion of dialectical tension in, 69
Epilepsy, in adolescents, 141–143; and psychosocial sequelae, 142; in relation to pattern of attachment, 146
Erikson, Erik, 54; Autonomy vs. shame and doubt, 70; basic trust vs. basic mistrust, 70; Bowlby’s criticism of, 72; child-rearing practices of Sioux and Yurok tribes, 186n. 9; Childhood and Society, 69–73; Dr. Martin Loeb, 186n. 8; eight-stage epigenetic model, 70; generativity vs. stagnation, 70; identity vs. identity diffusion, 70, 135–136; industry vs. inferiority, 70; initiative vs. guilt, 70; integrity vs. despair and disgust, 70; intimacy and distancing vs. self-absorption, 70
Erogenous zones, 2
Ethology, 1, 53
Fairbairn, W. R. D., 17–21; and divergence from libido theory of classical psychoanalysis, 17–18; maturational schema of, 20–21
Father’s role, 65
Ferenczi, Sándor, 5–7; and the “active technique,” 6; and seduction hypothesis, 6
Fonagy, Peter, 86
Fosshage, James, 102
Freud, Anna, conflict with Klein, 8–9
Freud, Sigmund: conflicted desire, 73; libido theory, 3; mourning, 38; 1905 theory of libido, 2–3, 184n. 3; oral stage, 3; object relations, 3, 8; Oedipus complex, 2; primary narcissism, 3; separation anxiety, 3; sexual energy, 2
