ACKNOWLEDGMENTS

To my family, Doreen, Bryant, and Kyle, for your support and love.
To my friends Charlotte Pinto and Raymie Wayne, whose careful reading of earlier and lesser versions of this manuscript has greatly improved the clarity and content of the final product—thanks.
To my students and colleagues at Saint Joseph College and all who have attended my courses, trainings, and workshops: your case examples, questions, encouragement, and thoughts on how law and social work intersect gave me the insight and courage to write a book about the law without losing my social work identity.
Finally, to Polly Kummel, copy editor extraordinaire, whose clear thinking and assertive editing enriched the language and flow of this book.
