INDEX

Achievement motivation trait, 76
Adams, John, 120
Adaptation, 36, 41; theory of emergence and, 52–53. See also Complex adaptive systems
*Adaptive Markets Hypothesis* (Lo), 42
Adler, Mortimer J., 175n4 (chap.7)
Aesop’s investment axiom, 125–126
Aesthetics, 85–86
*Against the Gods* (Bernstein), 130
Age as risk factor, 75
Amazon.com, 92–93, 174n9
“Analysis of Economic Time Series, The” (Kendall), 20
Analytical reading, 111–112, 117
Anderson, Phil, 63
“A New Interpretation of Information Rate” (Kelly), 134
Anthropology, 49
Aristotle, 14, 16
Arrow, Ken, 36, 145
Arthur, Brian, 35–36, 37–38, 63
Artificial neural networks, 7
Asch, Solomon, 60–61
Auguste Dupin books (Poe), 122
Bachelier, Louis, 21, 24
Bak, Per, 61–63
Barber, Brad, 73–74
Bayes, Thomas, 130–132
Bayes’s theorem, 131–132, 150
*Beat the Dealer* (Thorp), 135
Beeman, Richard, 4–5
Behavior: crowd, 56–57; emergence and group, 55–56, 57–59
Behavioral finance, 68–69, 133
Behavioral inefficiency, 40, 42
“Behavior of Stock Price, The” (Fama), 22
Beliefs: pragmatism and, 97–98, 99–102; systems of, 78–79
*Believing Brain, The* (Shermer), 79
Bell, Don, 107
Benartzi, Shlomo, 69–71
Berkshire Hathaway, 71–72, 139
Berlin, Isaiah, 149–150
Bernoulli, Jacob, 130
Bernstein, Peter, 20, 130, 145
Biological ecology, 39
Biology, 26–44, 159; complex adaptive systems and, 35–44; evolution and, 26–35
Birkhoff, Garrett, 10
Black, Fischer, 80
Black Swan: The Impact of the Highly Improbable, The (Taleb), 143–144
Blind Man’s Bluff (Sontag and Drew), 172n1 (chap.4)
Bohlin, Steve, 107–108
Books, types of, 113–114
Boole, George, 10
Boswell, James, 96
Brahe, Tycho, 14–15
Buffett, Warren, 1, 2; investment strategy and, 40, 125–127, 129, 135, 139; myopic loss aversion and, 71–72, 73
Burke, James, 9
Calibration, 150
Cambridge Dictionary of Philosophy, The, 115
“Capital Asset Prices” (Sharpe), 22–23
Capital Ideas (Bernstein), 20
Capitalism, 48
Carlyle, Thomas, 56
Cash flows and investment strategy, 40. See also Discounted Cash Flow (DCF) model
Cash return on invested capital strategy, 40
“Cash-value”, of beliefs, 100; of studying philosophy, 103
Center for Bio-Security Science (CBSS), 53
Chesterton, Gilbert Keith, 123, 145
Christensen, Clay, 41
Clockwork universe, 17–18
Coca-Cola Company (KO), 72, 172–173n4
Cognitive Reflection Test, 146–147, 176n1
Coleridge, Samuel Taylor, 170n3 (Chap.3)
Collective choice, 63
Collective problem-solving, 53–61
Communication systems, 81–82, 108
Comparative problem-solving, 53–61
Complex adaptive systems, 23–24, 43; complexity theory and, 50–53;
economics and, 35–38; philosophy and, 87–89; self-organization and, 53–65; “self-organized criticality” and, 61–63
Complex social systems, 65
Comte, Auguste, 18, 47–48
Confirmation bias, 96
Conformity of groups, 60–61
Confusion of Confusions (Vega), 46, 72
Connectionism, 6–7, 157
Connections (Burke), 9
Consilience: The Unity of Knowledge (Wilson), 161
Controller of economy, lack of, 36
Copernicus, Nicolaus, 14–15
Cowles, Alfred, 20
Craik, Kenneth, 77
Creative Destruction (Foster and Kaplan), 41
Creative destruction, Schumpeter on, 32
Credit, Schumpeter on, 32
Critical mind-set, 117
Critique of Judgment (Kant), 51
Crowd, The (Le Bon), 56–57
Crowd behavior, 56–57
Cultural anthropology, 49
Cunniff, Rick, 139
Curtis, Greg, 108
Cyber Monday, 93–94
Damodaran, Aswath, 70
Darwin, Charles Robert: background of, 27–30, 170n3 (Chap.3); The Origin of Species, 30–31, 43–44
