

INDEX

- Abu Dhabi (Masdar project), 240
- accountability: economic and social governance, 335–338; G20 representatives, 349
- adaptation assistance, GHG reduction, 218–219
- ad hoc model, G20, 351
- adverse demand effect, weakening social protections in United States, 25
- Aegis Defense Services Limited, 124
- Afghanistan: applying human security approach to, 133–139; bottom-up approach, human security, 136; civilian casualties, 120; drug trade, 147, 150–151; effective multilateralism, 136–137; legitimate political authority, 135–136; primacy of human rights, 134–135; private security contractors, 124; regional focus, 136–137; strategy of targeting civilians, 121; suicide bombings, 122; United States' war in, 5
- air quality: air capture, GHG reduction, 225n12; cities' addressing issue of, 236
- air strikes, 122
- Aitkenhead, Decca, 147
- Aldy, Joseph E., 158, 381
- Al Jazeera*, 345
- all-else-being-the-same (“ceteris paribus”) assumption, 67–68
- alliances, security: East Asia bilateral partnerships, 108; NATO, 108; rebuilding, 108–109
- AMF (Asian Monetary Fund), 344
- Amos, James F., 127
- Angola, financing for organized violence, 126
- Annex I countries, Kyoto Protocol, 207–208
- anonymity, cities and, 279–280
- Armour Group International, 124
- Article 2, Kyoto Protocol, 207
- Article 17, Kyoto Protocol, 207, 209

- Article 27, Kyoto Protocol, 210
- Asia: Asian Monetary Fund, 344;
 East Asia bilateral partnerships, 108;
 rise of, impact on United States
 security, 98–99
- Asian Monetary Fund (AMF), 344
- asymmetric globalization, 33–34
- asymmetric wars, 236
- Atlantic Charter (1941), 103
- auctioning off emission permits,
 177–178
- automatic stabilizers: deregulation,
 44n4; macroeconomic stability, 36
- B32 cap-and-trade, 221
- “badlands”, 125–127
- bailouts, bank, 29
- Balkans, role in growth of criminal
 markets, 147–148
- Bank for International Settlements
 (BIS), 340n3, 360–361, 367
- banks: bailouts, 29; Multilateral
 Development Banks, 318, 322–323.
See also World Bank
- Barth, Erling, 64, 65
- Basel Committee on Banking
 Supervision, 347, 360, 362, 364
- Basel III Accord, 366
- BAU (business-as-usual) emissions, 217
- Beck, Ulrich, 118, 290
- Beijing Summit on Women, 315
- Bellamy, Ian, 100
- bellum, 119
- “benchmark for excellence” mechanism,
 European Commission, 296–297
- Berlin Wall, fall of, 144–146. *See also*
 collapse of communism
- bilateral aid, 318
- bilateral twinning, horizontal climate
 governance, 298
- biofuels, 164
- biosphere: cities as socioecological
 systems, 244–246; connection
 between spatial and temporal scales,
 252–253; multiple articulations of
 cities and, 239–241
- BIS (Bank for International
 Settlements), 340n3, 360–361, 367
- Black Angel Brigades, 123
- Blackwater USA, 124
- Blair, Ian, 270
- blue-collar jobs, Sweden, 80–81
- Body-Gendrot, Sophie, 234–235,
 381–382
- Bonn process, Karzai government,
 135–136
- border policies, cities, 281
- Borgwardt, Elizabeth, 103
- Bosnia, strategy of targeting civilians,
 121
- bottom-up approach, human security:
 Afghanistan, 136; overview, 130–131
- Bouyeri, Mohammed, 261
- BP, 172
- Brandt, Willy, 281
- Brazil: effect of economic crisis on, 86;
 U.S. cotton subsidies and, 10
- Brazil, Russia, India, China and South
 Africa (BRICS) coalition, 329
- Bretton Woods arrangement, 331
- Bretton Woods Institutions (BWIs), 317,
 319, 334, 336
- BRICS (Brazil, Russia, India, China and
 South Africa) coalition, 329
- Britain: order strategies, 268; riots,
 263–266. *See also* London
- Brown, Gordon, 268
- Brzezinski, Zbigniew, 101
- bubbles, financial market: overview, 84;
 regulation and, 87
- burden sharing, environmental
 protection: carbon-added tax,
 168–169; carbon conservation
 equation, 166, 196–202; carbon tax,
 agreed-upon, 174–175; carbon tax,
 calculating incidence of, 191–192;
 carbon tax, overview, 173–174; costs
 of mitigation, 165–166; distortionary

- approaches to mitigation, 179–181;
 double dividend model, 192–194;
 emission permits, corruption and,
 177–178; emission permits, equal
 emissions per capita, 175–177;
 emission permits, granting on
 basis of past levels of emissions,
 178–179; equitable burden sharing,
 171–175; externalities, 172; financing
 global public goods, 174; global
 agreement on standards, 181;
 global governance and climate
 change, 186–187; insufficiency of
 improved energy efficiency, 172–173;
 intergovernmental distributional
 implications, 169–171; national
 security, energy independence,
 and emission reductions, 183–186;
 optimal and equilibrium patterns of
 extraction, 195–196; overview, 161–
 163; public finance theory, 163–164,
 167–171; terrestrial carbon, 183–184;
 theory of second best, 164–165; use
 of technology, 181–182
- business-as-usual (BAU) emissions, 217
- BWIs (Bretton Woods Institutions), 317,
 319, 334, 336
- “*cæteris paribus*” (all-else-being-the-
 same) assumption, 67–68
- cap-and-trade system: advantages of
 carbon taxes over, 219–220; linking
 to emission-reduction-credit system,
 221–223
- capital market liberalization, 32–33
- carbon-added tax (CAT), 169
- carbon conservation equation, 166,
 196–202
- carbon emissions: deforestation and,
 184; “free rider” problem, 157–159;
 theory of second best and, 164–165.
See also GHG emissions
- carbon tax, 165, 167; advantages over
 cap-and-trade system, 219–220;
- agreed-upon, 174–175; calculating
 incidence of, 191–192; cost-effective
 implementation, 221; global, 173–174
- carbon trading, 173–174
- CarderPlanet Web site, 152
- Cardoso, Fernando Henrique, 151
- Carter, Ashton, 107
- CAT (carbon-added tax), 169
- CCP (Cities for Climate Protection),
 242, 302n1
- CDM (Clean Development Mechanism),
 Kyoto Protocol, 207, 209, 221–223
- centralized state, 291–292
- C40 Large Cities Climate Leadership
 Group, 284, 294, 295
- Chad, strategy of targeting civilians, 121
- Chapultepec Park (Mexico City), 272
- Chechnya, financing for organized
 violence, 126
- Chief Executive Board (COB), UN, 335
- child care, Norway, 64
- China: ability to use military force
 unilaterally, 3; BRICS coalition, 329;
 carbon emissions, 167–168; emission
 rate projections, 177; industrial
 carbon dioxide emissions, 208;
 National Program on Climate Change
 (2007), 226n14; rise of, impact on
 United States security, 98–99
- cities: anonymity and human rights,
 279; asymmetric wars and, 236;
 border policies, 281; challenges
 to urbanizing global governance,
 243–244; “Cities for Climate
 Protection” global initiative, 242;
 city level governance, advantages
 of, 233–234; city twinning (bilateral
 twinning), 298; climate governance,
 234–236; complexity and global
 projection of, 246–248; Conference
 of Parties, 242; conflict resolution
 and, overview, 276–277; connection
 between spatial and temporal
 scales in biosphere, 252–253;

- cities (*continued*)
- cross-border migration to megacities, 284–285; divided, 281; expanding role of city leaders, 283–284, 285; horizontal governance, 234; lack of representation in current climate change governance framework, 241–242; Local Government and Municipal Authority Constituency, 242; Local Government Climate Roadmap, 241–242; Local Governments for Sustainability network, ICLEI, 242; multiple articulations of, and biosphere, 239–241; multiscalar ecological urban analysis, 248–254; Municipal Leadership Summits, 242; pioneer cities, 299; research and, 286; role in international conflict resolution, 280–282; role in mediation of global conflicts, 278–279; scaling analytic strategy, 251–252; sister cities, 299; as socioecological systems, 244–246; “unbiological”, 240; urban sustainability, 247–248, 250–251; urban violence, 237; wider applications of city governance, 282–283. *See also* urban climate governance
 - cities, violence in: civil unrest, 263–266; crime, 262; France, 263–266; Johannesburg, South Africa, 273; London, 263–266; 9/11 attacks, 261; overview, 260–261; policing strategies, 268–270; regimes of order, 266–269; “sensitive urban zones”, 263–264; terrorism, 262; unsafe cities, 261–263; urban capacities for ensuring order, 269–273; “zero-risk societies”, 262. *See also* London
 - Cities for Climate Protection (CCP), 242, 302n1
 - civilian command, human security, 131–133, 138
 - civilians. *See* human security
 - civil unrest: riots, 263–266; “sensitive urban zones”, 263–264
 - Clean Development Mechanism (CDM), Kyoto Protocol, 207, 209
 - Climate Alliance, 294, 302n1
 - climate change: global governance and, 186–187; Intergovernmental Panel on Climate Change, 290; National Program on Climate Change (China), 226n14; transnational city networks, 294–295; United Nations Framework Convention on Climate Change, 206, 241. *See also* urban climate governance
 - Climate Change Action Plan (2007), London, 294
 - Climate Change Act of 2008 (United Kingdom), 292
 - Climate Change Strategy (2007), Tokyo, 294
 - climate governance: hierarchical, 234, 290–293; horizontal, 234, 291, 298–300; lack of representation of cities in, 241–242; vertical, 234, 291, 293–297. *See also* urban climate governance
 - climate refugees, 78
 - Clinton Climate Initiative, 294
 - cluster munitions, 122
 - CNDS (Commission Nationale de Déontologie de la Sécurité; National Council for Professional Standards in Security), 235
 - Coase, Ronald H., 176
 - COB (Chief Executive Board), UN, 335
 - coherence, as challenge to global governance, 335
 - Cold War: effect of end of on United Nations, 319–320; role in shaping national security, 368; security interdependence during, 100–101; visibility of globalization following, 4

- collapse of communism: globalization and, 146–149; role in expansion of criminal industries, 144–146
- collective action: legitimizing, 109–110; natural locus of, 7–8; Scandinavia, 51
- collective irrationality, 31–32
- collective security, 114n8
- Colombia: drug trade, 147–148; financing for organized violence, 126
- Commission Nationale de Déontologie de la Sécurité (CNDS National Council for Professional Standards in Security), 235
- Commission of the Social Dimensions of Globalization, 335
- Committee on Payment and Settlement Systems, 364
- Communications and Transit Authority, and Health Organization, 317
- communism, collapse of: globalization and, 146–149; role in expansion of criminal industries, 144–146
- COMO (Covenant of Mayors Office), 297
- competition and efficiency concept, 75–79
- comprehensive approach to security, 93, 106–108, 114n8
- Conference of Parties (COP), 242
- conflict groups (nonstate transnational actors): breakaway factions, 101; empowerment of, 102; extremist Islamist groups, 123; insurgents, 101; paramilitary groups, 122; party militias, 123; revolutionary or resistance groups, 122; self-defense forces, 123; terrorist groups, 101
- conflict resolution, role of cities in: anonymity and human rights, 279–280; international conflict, 280; mediation of global conflicts, 278–279; overview, 276–277
- consensus-building, G20, 345
- constituencies model, G20, 349–351
- consumption based tax, carbon emissions, 168
- consumption zones, drug trade, 147–148
- Cooper, Robert, 114n4
- cooperation, global. *See entries beginning with global cooperation*
- cooperative security, 93, 106–108, 114n8
- coordinated and unilateral national policy architecture: linkage of national and regional tradable permit systems, 221–223; overview, 211
- coordinated wage bargaining, 54–55
- coordinated wage compression, 58–59
- COP (Conference of Parties), 242
- Copenhagen Accord, 158
- Copenhagen Social Summit, 315
- corrective (Pigouvian) taxes, 167
- Council of Europe, 322
- Counter-Insurgency Manual, 127–128
- counterterrorism, 122
- Covenant of Mayors, 296
- Covenant of Mayors Office (COMO), 297
- cream skimming, private insurance firms, 29
- creative destruction process, Scandinavian equality, 58–61
- criminal industries: blurring of political violence and criminal violence, 92; collapse of communism and globalization, 146–147; crime in cities, 262; cyber crime and financial fraud, 152–153; drug trade, 147, 150–151; impact of reforms stipulated by aspiring members of EU, 149–150; overview, 143–144; stabilization and return of state, 149–150; violent entrepreneurs, 145–146. *See also* collapse of communism; organized violence
- cross-border city-alliances, 250
- cross-border migration to megacities, 284–285

- cyber crime, 152–153
- cyclical governance deficit, 357

Environment and Development, 326
- defense spending: global increase of
military spending, 369–370, 376n13;
sense of security and, 92
- deficits: global democratic deficit,
309–312; governance, 357;
macroeconomic stability and, 36
- deforestation, carbon emissions and, 184
- Democracy in America*, 48
- Democratic Republic of Congo, civilian
casualties, 120
- deregulation: automatic stabilizers,
44n4; basis for, 20; role of
globalization in, 3; and weakening
social protections, 44n3
- Dervis, Kemal, 75–79, 382
- deterrence, 100
- developing countries: developing-
country-friendly international
system, 328; need for equitable
participation in global governance,
332–333; social protection for, 78–79
- development: global cooperation
for, 316; role of G20 in, 347; of
societies, 315
- “development aid” concept, 318, 323
- diffuse threats: to international peace
and security, 94; to United States,
97–98
- Directorate of Domestic Intelligence
(DCRI) (France), 267–268
- disarmament, demobilization, and
reintegration (DDR), 130
- distribution zones, drug trade, 147–148
- distributive concerns, emissions
mitigation, 179–180
- divided cities, 281
- dividend tax paradox, 44n10
- domestic security, connection to global
security, 92–93
- double dividend model, burden sharing,
192–194
- double redistribution, Scandinavia,
68–69
- drone air strikes, 122
- drug trade: Afghanistan, 147,
150–151; Colombia, 147–148;
medical marijuana industry, 151;
zones of consumption, 147; zones
of distribution, 147; zones of
production, 147
- duellum, 119
- Duggan, Mark, 264
- dynamic efficiency, 59
- DynCorp LLC, 124
- Earth Summit (Rio agreement) 1992,
159, 182, 326–327
- East Asia bilateral partnerships, 108
- Economic and Social Council
(ECOSOC), 319, 335–338
- economic and social governance:
accountability, 335–338; basing
governance system on representative
institutions, 333–334; challenge
of coherence, 335; challenges
in, 332–338; global cooperation
for development, nature, scope,
and limits of, 320–324; global
cooperation for development,
objectives of, 314–320; global
governance structures, 329–332;
importance of regional institutions

- in, 332; marginalization of United Nations from global economic decision-making, 333; need for equitable participation of developing countries in global governance, 332–333; overview, 313–314; surveillance mechanisms, 337; world economic asymmetries, 322–328
- economic globalization, role in pressure on cities, 249
- economic recession, 153
- economic security: catalytic role of social protection for government, 40–42; coping with instability, 37–38; improving efficiency of social protection, 40; macroeconomic stability, 35–36; misalignment between private incentives and social returns, 41; regulatory policies, 36; severance pay, 37
- ECOSOC (Economic and Social Council), 319, 335–338
- education, Sweden, 81–82
- efficiency: competition and efficiency concept, 75–79; dynamic, 59; effect of coordinated wage compression on, 59–60; insufficiency of improved energy efficiency, 58–59; static, 59
- emerging economies: carbon tax treaty, 220–221; coalitions of, 329; effect of emission leakage on, 208; inclusion of in G20, 344–347
- emission permits, 167, 175, 178–179
- emission-reduction-credit system (CDM), 221–223
- emission reductions: adaptation assistance, 218–219; “free rider” problem, 8; geoenvironmental and, 219; research and development for, 218; sector-level agreements for, 217–218
- emissions. *See* GHG emissions
- employers, as supporter of equality (Scandinavia), 55–56
- empowerment: cities’ capacity for, 271–272; of nonstate transnational actors, 102; of weak groups with welfare spending, 63–64
- energy: insufficiency of improved efficiency, 172–173; urbanizing global governance, 235–236, 244
- enforcement mechanisms: environmental protection agreement, 159–160; global governance, 11–12. *See also* international agreements
- environmental protection: Copenhagen Accord, 158; enforcement mechanisms for, 159–160; equitable burden sharing, 171–175; “free rider” problem, 8, 157–159; Kyoto Protocol, 158, 175, 207–210, 241; obstacles to achieving enforceable agreement, 159; Rio agreement 1992, 159, 182, 326–327. *See also* burden sharing, environmental protection; climate governance; sustainable development, global social justice for equal emission permits per capita, 175–177

Praise for
The QUEST FOR SECURITY

“Our interdependent but uncoordinated world, in which we are often at loggerheads with each other, generates many different problems. In an insightful collection of contributions led by Joseph E. Stiglitz and Mary Kaldor, this wonderful book offers constructive ways of avoiding disaster with the help of global cooperation. A great book for our time.”

Amartya Sen, Nobel Prize-Winning Economist and Thomas W. Lamont University Professor and Professor of Economics and Philosophy, Harvard University

“At a time when most initiatives to reinvigorate the multilateral system and its provision of global public goods are failing, it is encouraging to read the analyses and proposals contained in this volume. The key message of this excellent collection is reassuring: that the governance predicaments posed by globalization are solvable after all; the intellectual battle is not lost and it is still possible, with workable propositions, to win the political one in order to build a better international system. With strong conviction, I buy the argument.”

Ernesto Zedillo, Director of the Yale Center for the Study of Globalization and former president of Mexico

“This important book offers new thinking for exceptional times. It draws fascinating parallels between what is happening in the fields of economics, security, and the environment and demonstrates why and how global solutions are the answer to the current interlinked crises.”

Javier Solana, former secretary-general of NATO

“*The Quest for Security* is one of the most comprehensive assessments of globalization’s challenges published to date. From mounting income inequality to the destructive power of climate change to the threat of terrorist attacks, this timely compilation of expert insight deftly exposes where global governance has failed and offers pragmatic solutions for building a secure, sustainable, and just post-crisis world.”

George Papandreou, former prime minister of Greece and president of the Socialist International
