Introduction
xxxix

Glossary of Mathematical Symbols in Order of Appearance
xli

PART ONE

The Progressive Emergence of Expectations in Economic Theory

CHAPTER ONE

Expectations Before the Rational Expectations Revolution

3

CHAPTER TWO

Rational Expectations Are Endogenous to and Abide by “the” Model

17

PART TWO

Allais’s Theory of “Expectations” Under Uncertainty

CHAPTER THREE

Macrofoundations of Monetary Dynamics

47

CHAPTER FOUR

Microfoundations of Monetary Dynamics: The HRL Formulation
of the Demand for Money

67

CHAPTER FIVE

The Fundamental Equation of Monetary Dynamics

95

CHAPTER SIX

Joint Testing of the HRL Formulation of the Demand for Money
and of the Fundamental Equation of Monetary Dynamics

113

PART THREE

Transposing the HRL Formulation to Financial Markets:
Preliminary Steps

CHAPTER SEVEN

Allais’s HRL Formulation: Illustration of Its Dynamic Properties by
an Example of Hyperinflation (Zimbabwe 2000–2008)

131

CHAPTER EIGHT

The HRL Formulation and Nominal Interest Rates

153

PART FOUR

The HRL Formulation and Financial Instability

CHAPTER NINE

Perceived Returns and the Modeling of Financial Behavior
183

CHAPTER TEN

Downside Potential Under Risk: The Allais Paradox and
Its Conflicting Interpretations
201

CHAPTER ELEVEN

Downside Potential Under Uncertainty: The Perceived Risk of Loss
241

CHAPTER TWELVE

Conclusion
265

APPENDIX A

How to Compute Z_n and z_n
271

APPENDIX B

Nominal Interest Rates and the Perceived Rate of Nominal Growth
275

APPENDIX C

Proofs
277

APPENDIX D

Comparison Between the Kalman Filter and Allais's HRL Algorithm
327

APPENDIX E

A Note on the Theory of Intertemporal Choice
331

APPENDIX F
Allais's Cardinal Utility Function

343

Notes
